

NLP Engineer / Developer – Research Fellow
HEC NRUP Project # 16153 – under the supervision of Dr. Muhammad Rafi

NLP Lab at National University of Computer and Emerging Sciences, Karachi Campus, is looking for a research fellow for HEC NRUP Project # 16153, it is a short term contract position (6 Months – likely to be extended to 1.5 years on satisfactory performance.). The candidate must have a BS degree in Computer Science or Software Engineering with a cgpa 3.00 or above on scale of 4.00 and currently pursuing MS from any recognized university. The candidate needs to have hands-on experience of implementing deep learning models for NLP Applications. Familiarity with deep learning frameworks (PyTorch/TensorFlow) and implementing knowledge of embedding/multi-model feature engineering will be a plus. It is a full time position with a fixed compensation of Rs. 50,000/= per month. It is an Excellent opportunity to get working experience on a large project.

Kindly send your CVs with a covering letter to Mr. Anwar Ali (email: anwar.ali@nu.edu.pk) with subject “NLP Engineer / Developer – Research Fellow ” latest by March 25, 2025.
