Rizwan has glorified the FAST-NU Peshawar Campus in one of the most prestigious event, Electrical Engineering Hardware Project Competition "EMCOT" was held at COMSATS Abbottabad on May 9 and 10, 2011. The team attained second position beating almost 70 teams from 13 different national universities participating in the event.

The project title was 'Sending Text Message using Brain Waves'. It was highly appreciated by all the visitors and faculty members. The project is supervised by Mr. Khalilullah, and co-supervised by Dr. Asmatullah Khan and Rehmatullah Kundi.

Apart from this achievement, altogether four EE Students groups participated in the event. All the four teams were offered full support by Continuing Engineering Education Center (CEEC) UET Peshawar to turn their projects into a finished commercial product.

Only qualified students get scholarships: HEC

As many as 2,045 Pakistanis are currently pursuing their higher education in various foreign universities through the Higher Education Commission (HEC). During the last eight years, a total of 674 students returned to the country after completing PhDs. Most of the students seeking higher education in foreign universities are pursuing their studies in natural sciences including physics, biology, chemistry, engineering and medicine. Other fields include social sciences, business and public administration.

Most of the students selected by the Commission for scholarships hail from developed areas of the country. The Commission has set criteria that students need to meet for scholarships in foreign universities, which is why students mostly from developed areas of the country end up qualifying. The Commission has relaxed its rules to facilitate students from Tribal areas and Balochistan.

BS (EE) student expresses gratitude for grant of loan

M.Bilal Junaid, a student of BS (Electrical Engineering), Department of FAST-NU Islamabad Campus and currently in the last semester of his graduation expressed his deepest gratitude to the FAST-NU Administration for granting him loan for studies.

In a letter to Rector, FAST-NU Dr. Amir Muhammed, he said that four years ago no university was ready to give him admission because he could not afford the expenses.

But, FAST-NU was the only university to accept him by granting the loan.

Bilal Junaid has recently received the best university award and the one of the best rated projects in AL-Zayed IT international competition in Abu Dhabi 2011.

He has attributed his success to the FAST-NU and its administration.

He has also won the PTA-Ericsson mobile excellence awards in 2010, gold medals in different semesters and many other national events.
