

Multan Campus

Director

Dr Shahzad Sarfraz

Professor

PhD (CS), AIT, Thailand (2012)

PhD Approved Supervisor

MSc (CS), University of Agriculture, Faisalabad (2006)

BCS, University of the Punjab (2004)

Located in the prestigious DHA area, the upcoming FAST-NUCES Multan Campus is set to become a hub of academic excellence and technological innovation. Once completed, it will carry forward the University's proud legacy of cultivating both professional competence and personal growth among its students. Our graduates are consistently recognized and highly sought after by industries at local, national, and international levels.

As future pioneers of Multan's emerging tech landscape, we are committed to driving transformative change in the region's digital ecosystem.

Known as the "City of Saints," Multan is steeped in rich cultural and historical heritage. Coupled with South Punjab's vibrant traditions and growing economic potential, the region offers a unique setting for academic advancement. The Multan Campus

will offer cutting-edge degree programs in Artificial Intelligence, Computer Science, and Software Engineering starting Fall 2025. Its architectural design will harmoniously blend traditional aesthetics with modern infrastructure, reflecting the spirit of Multan and South Punjab.

Prospective students can look forward to an intellectually stimulating environment and a vibrant campus life. Planned amenities include high-tech laboratories, modern classrooms, and comfortable residential hostels. Our passionate and experienced faculty will uphold the highest academic standards, nurturing the innovators and leaders of tomorrow.

The FAST-NUCES Multan Campus is more than just an educational institution—it is poised to become a symbol of progress, innovation, and cultural pride for the entire region.
